

Quality Policy

The Management of **Mirus International Inc.** is operating under the control of a quality management system along the lines laid down in the **ISO 9001:2008** standard. The company is committed to provide high quality and highly efficient harmonic filters, transformers and other harmonic mitigating products to our customers.

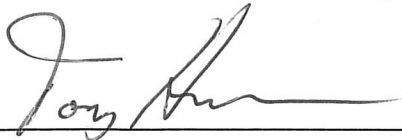

The Company places particular emphasis on obtaining Customers' satisfaction by:

- The constant pursuit of quality, value and reliability in the products and services, the Company supplies to its customers
- Approach all of our daily activities with only the highest degree of Integrity
- Responding promptly and accurately to customer inquiries and orders
- Communicating our quality objectives and our performance against these objectives throughout the organization and to interested parties
- Take due care to ensure that activities are safe for employees, associates, suppliers and others who come in contact with our work
- Working closely with customers and suppliers in seeking to establish the highest quality standards
- Training all members of staff in the needs and responsibilities of quality management
- Continually improving its quality system and processes in order to meet and exceed ever-changing customer requirements and enhancing the satisfaction of the customers and its employees.

It is the Company's policy to seek to operate to these standards continuously and to implement and operate fully the **ISO 9001:2008** standard as registered and through annual review. The Company complies with all applicable legislation relevant to its industry including all health and safety regulations and seeks continual improvement of its management system. We will strive to provide all of our customers with truly effective and reliable power quality products and services based on sound and innovative engineering.
